Landscape Engineers, at their San Mateo Nursery.

Specimen Irish Yews at our Beresford Nursery (*Taxus baccata fastigiata*)

The MacRorie-McLaren Company maintains at its nurseries unique specimens of many varieties of plant life, in very many cases not obtainable elsewhere. The accompanying illustration of Irish Yews shows plants 20 feet in height, in addition to which there are many other magnificent specimens of Retinosporas, Eugenias, Wistarias, Hollies, Rhododendrons and other interesting and rare specimen plants.

Announcement

THE MacRorie-McLaren Company had its inception in the year 1909, creating a business devoted to landscape engineering and establishing a general nursery at Beresford, San Mateo County, where all varieties of ornamental trees and plants are to be found, both indoor and outdoor. A large portion of the beautiful Christmas and Easter flowering plants which are on display in the various florists' stores throughout the bay region are raised by them for this trade, specialties being made of Cyclamen, Poinsettias and Begonias.

A large force of trained landscape engineers and skilled landscape gardeners is maintained under the direct supervision of Mr. Donald McLaren, who has specialized in this line of work for many years, and who as assistant chief of the department of landscape gardening at the Panama-Pacific International Exposition had direct charge of the execution of all of the planting work of our World's Fair in 1915. The firm thus provides a service unique in character and equipped to handle work of any class in this line of endeavor, irrespective of size, large or small. It is thoroughly equipped to design and execute work of any type, such as the building of lakes, concrete walls, swimming pools, tennis courts, roads and walks, pipe systems, as well as all ordinary work connected with the gardening profession. In this way every detail of landscape gardening may be actually figured out and a comprehensive, homogeneous plan presented before operations are begun.

In presenting our price list 1924-1925, we desire to call the attention of our patrons to the fact that we are continually importing quantities of nursery stock, and while our catalogue contains a fair record of what we have on hand at the time of its issue, we will be adding to our stock throughout the planting season.

We are in a position to supply trees, plants or shrubs in any quantity, and invite inquiry.

We specialize in hardy, high-grade field grown stock, suitable to our climatic conditions. The unequaled reputation which we hold as growers, not only locally but throughout the country, is a tribute to the care which we exercise in the execution of our orders.

Our Nurseries are at Beresford, about two miles south of San Mateo. The Southern Pacific train leaving Third and Townsend Depot, San Francisco, at 11:40, stops in the nursery grounds, and auto bus line, passing the nursery, leaves from Fifth and Market Streets every fifteen minutes during the day.

PRICES AND QUANTITIES

Articles mentioned in following list will be furnished at prices named, as follows: Five at 10 rate, and less than five of a variety at the single rate.

Packing: We employ only experienced packers and all our trees and shrubs are labeled. We charge for packing and packing material at actual cost.

Shipping: For truck load lots we deliver within a radius of 25 miles of San Mateo free of charge except on deliveries across the bay of San Francisco, when charge is made based on actual cost.

Express or Freight: Method of shipment should be clearly stipulated. When no specification is made, we exercise our best judgment, but assume no responsibility for losses or delays occasioned through negligence of transportation companies. We have a spur track in our nursery grounds, which makes it possible for us to superintend the packing of large freight shipments and also saves unnecessary handling of plants.

Replacements: Inasmuch as we have no control over planting or care of trees, plants or shrubs after they leave our hands, we do not agree to assume any obligation to replace same if they die. Plants delivered in perfect condition become the property of the purchaser at the time of delivery.

We are always willing to rectify any errors or shortages, and we respectfully request that our patrons report same on receipt of goods, or at least within ten days thereafter.

Terms: Our terms are thirty days net, 2 per cent ten days. To customers unknown to us cash remittances are required.

FRESNO BRANCH: To cover additional cost of handling and transportation expense, an extra charge of ten per cent is added to our catalogue prices for Fresno delivery.

ORNAMENTAL EVERGREEN TREES AND SHRUBS

ABELIA GRANDIFLORA (rupestris). 6 to 10 feet. A fine ever-blooming shrub of gracefully drooping habit, covered with white, tube-like, sweet-scented flowers, flushed lilac-pink. We class this as one of the finest flowering shrubs. The garnet tinge of the young foliage is an added attraction to this shrub.

	Each	Lots of 10
Field grown, 1 to 2 feet.....	\$1.00	\$8.00

ABIES (Fir). Evergreens characterized by their symmetrical growth and usually conical outline. Leaves needle-like and separate, not in bundles or tufts. Almost all the species are very beautiful specimen trees.

We have on hand a splendid collection of specimens in variety.

Established plants or specimens—prices on application.

ACACIAS

Highly ornamental and decorative, rapid growing shrubs and trees. We have a collection of many varieties, mostly native of Australia. We have devoted particular attention to the development of Acacias in California, and have found them to be one of the most satisfactory evergreens. The following are some of the best species which we offer:

A. ARMATA. 10 feet. Spreading, drought-resisting shrub. Small, light yellow flowers in solitary globular heads. Profuse bloomer in February. Excellent for grouping.

	Each	Lots of 10
Potted	\$.75	\$6.00

A. BAILEYANA. 30 feet. Leaves and branches glaucous, fern-like, with silvery sheen. Covered with mass of bright canary-yellow flowers in January. One of the handsomest of all flowering trees.

	Each	Lots of 10
Tubbed specimens	\$2.00	\$15.00
Potted	1.00	8.00

A. CULTRIFORMIS. 10 feet. Leaves acute and glaucous and undivided. Very heavy bloomer. Flowers deep golden yellow. Long, drooping branches. Excellent for grouping. Hardy.

	Each	Lots of 10
Potted	\$.75	\$6.00

A. DEALBATA (Silver Wattle). 40 feet. A rapid growing tree. Feathery, fern-like, bluish foliage. Golden yellow flowers. An excellent avenue tree.

	Each	Lots of 10
Potted	\$.75	\$6.00

A. DECURRENS (Green Wattle). 60 feet. Leaves feathery and finely divided, dark green. Flowers whitish yellow. Blooms March to May. Upright habit. Often used as an avenue tree.

	Each	Lots of 10
Potted	\$.75	\$6.00

A. FLORIBUNDA. 30 feet. Quick growing tree. Leaves bright green, long and slender. Flowers yellow, in short racemes, very fragrant. Blooms in summer. Excellent for grouping, soft and lacy in texture.

	Each	Lots of 10	Lots of 100
Potted	\$.75	\$6.00	\$50.00

A. LATIFOLIA (Longifolia). 50 feet. Quick grower. Large, undivided, light green leaves. Spreading habit. Highly floriferous. Golden yellow flowers. Excellent for grouping. Used for screen planting. Can also be trained to standard form. A very useful shrub.

Standards in neat green boxes, stem 4 to 6 feet, crown 24 inches in diameter.....

	Each	Lots of 10	Lots of 100
Potted	\$.75	\$6.00	\$50.00

A. LOPHANTHA. 20 feet. Leaflets large. Much divided, feathery foliage of tropical suggestion. Flower spikes 2 inches long.

Yellowish green. A very quick grower. Can be trained to square table-form.

Standards in tubs, 3 to 4 ft. heads..\$7.50 each

	Each	Lots of 10
Potted, 2/3 ft.....	\$.75	\$6.00
Potted, 3/4 ft.....	1.00	7.50

A. MELANOXYLON (Australian Black Wood). 80 feet. A strong, erect and symmetrical grower. One of the best trees for parks and street ornamentation. Bears pruning splendidly. Blade leaves. Flowers pale yellow. Blooms in March. Can be trained to any desired form and kept any size.

Specimens in tubs, 6 to 2 feet.....\$3.00 each

	Each	Lots of 10	Lots of 100
Potted	\$.75	\$6.00	\$50.00

A. MOLLISSIMA (Black Wattle). 40 feet. One of the best of its class. Foliage feathery, dark green. Flowers fragrant. Very profuse bloomer. Often used as avenue tree. Blooms December to March.

	Each	Lots of 10	Lots of 100
Potted	\$.75	\$6.00	\$50.00

A. PYCNANTHA (Golden Wattle). 50 feet. Leaves large, undivided and waxy. Flowers large, golden-yellow, in pendulous clusters. Fragrant. Blooms in February.

	Each	Lots of 10
Potted	\$.75	\$6.00

A. SALIGNA. 25 feet. Small tree of rather weeping habit. Flower heads few, but very large and showy. Blooms in March. Similar to Pycnantha, often so classed.

	Each	Lots of 10
Potted	\$.75	\$6.00

A. VERTICILLATA. 10 feet. Leaves dark green, sharp and rigid. Graceful weeping variety. Splendid flowering habit. Flowers in small yellow spikes. Profuse bloomer, April and May.

	Each	Lots of 10
Tubbed specimens	\$2.00	\$15.00
Potted75	6.00

ARALIA SIEBOLDII (Japan). Shrub with straight stem; large, palmately-lobed leaves. Smooth, deep glossy green. Desires shaded location and much used as an ornamental potted plant. Excellent where tropical effect is desired.

	Each	Lots of 10	Lots of 100
Tubbed specimens	\$5.00	\$40.00	
Potted, 1 1/2 ft.....	2.00	15.00	

ARBOR VITAE (See *Thuja*).

ARBUTUS UNEDO (Strawberry Tree). 15 feet. Erect growth, rich green, serrated foliage. White, heath-like flowers. Red, strawberry-like fruits appear in winter. Highly desirable in California.

	Each	Lots of 10	Lots of 100
Potted	\$1.50	\$12.50	

ARBUTUS MENZEISI (Madrone). 40 feet. Erect habit, white blossoms and noted for its beautiful foliage and lovely red bark. Beautiful clusters of large red berries in winter season.

	Each	Lots of 10
Potted	\$1.75	\$15.00

AUCUBA JAPONICA VARIEGATA. Variegated form of Japanese Laurel. Leaves coarsely serrated, marked with conspicuous yellow spots. Shade loving, highly ornamental shrub. Suitable for pot culture.

	Each	Lots of 10	Lots of 100
Field grown	\$1.25	\$10.00	
Potted75	6.00	

AUCUBA JAPONICA. Green form of above.

	Each	Lots of 10	Lots of 100
Potted	\$.75	\$6.00	

AZALEA HINODIGIRI. A superb low-growing evergreen shrub of bushy habit and perfect hardiness. Flowers bright scarlet-magenta, small and produced in solid mass in spring. Leaves become bronze tinted in fall. Excellent for beds, borders or low grouping.

	Each	Lots of 10
Field grown, 1½/2 ft.....	\$4.00	\$35.00
" " 9/12 in.....	2.50	22.50

AZALEA KURUME. Beautiful, low-growing Japanese form of Azalea with strikingly handsome blossoms running in color through all the pastel shades.

	Each	Lots of 10	Lots of 100
Field grown, 9/12 in.....	\$2.50	\$20.00	

AZARA MICROPHYLLA. 15 feet. Small tree of erect habit with very small, glossy green leaves. Flowers very small and yellow with decided chocolate fragrance.

	Each	Lots of 10
Potted	\$1.25	\$10.00

BERBERIS DARWINII. 3 feet. One of the handsomest of the evergreen berried plants. Small, bright, holly-like leaves. Plants densely branched. Flowers orange yellow. Blooms profusely in early spring. Of great value in shrubberies.

	Each	Lots of 10
Field grown, 1/2 ft.....	\$1.25	\$10.00

B. STENOPHYLLA (Garden Hybrid). 4 feet. Shrub with long, slender, arching branches. Leaves small, long and narrow; dark green above, silvery beneath; spiny pointed with revolute margins. Flowers deep golden yellow.

	Each	Lots of 10
Field grown, 2/3 ft.....	\$1.50	\$12.50

B. WILSONI. 4 feet. Shrub of erect habit with upright or arching branches; foliage light green with bronzy tips, turning to a brilliant scarlet in the fall; flowers lemon yellow, berries light red. Fine for hedges.

	Each	Lots of 10
Field grown, 2/3 ft.....	\$1.25	\$10.00

BUDDLEIA GLOBOSA. 10 feet. Chile. Compact shrub. Leaves long, rough and narrow. Flowers, orange yellow.

	Each	Lots of 10
Field grown, 2/3 ft.....	\$1.25	\$10.00

B. MAGNIFICA. 8 feet. A beautiful arching shrub of robust habit; foliage a bright green, long and narrow; flowers of a deep rose purple, with an orange eye and the margin of petals reflexed; panicles dense; blooms in August.

	Each	Lots of 10
Field grown, 2/3 ft.....	\$1.25	\$10.00

B. VARIABILIS VEITCHII. New variety from China. Loose, graceful habit, with flowers in long spikes, delicately lilac colored, 10 to 12 inches long. Blooms profusely. Very rapid grower.

	Each	Lots of 10
Field grown, 2/3 ft.....	\$1.25	\$10.00

BUXUS (Boxwood). These very ornamental shrubs of dense but rather slow growth, with shining foliage, are invaluable for grouping, lawn decoration and for hedge purposes. For tub culture and for formal decorative work they are more extensively grown than any other plant. They thrive in a warm, dry climate fully as well as on the coast.

Buxus sempervirens. Bushes.

	Each	Lots of 10
Field grown, 1/1½ ft.....	\$1.25	\$10.00

Buxus sempervirens. Pyramids.

BROOM

CYTISUS ALBUS. Portugal. Moderate-sized shrub with long, slender branches covered with numerous pure white flowers. One of the most showy spring flowering shrubs. Excellent for cutting.

	Each	Lots of 10
Potted	\$.75	\$6.00

CYTISUS CANARIENSIS. 10 feet. A quick-growing shrub of dense habit. Downy branches and leaves. Flowers in racemes, bright yellow and fragrant. Spring flowering.

	Each	Lots of 10
Potted	\$.75	\$6.00

CYTISUS RACEMOSUS (Dwarf variety). Flowers bright yellow, disposed to a terminal spike. Six inches long. Excellent for window boxes and pot work.

	Each	Lots of 10
Potted	\$1.00	\$8.00

CYTISUS SCOPARIUS. Scotch. 10 feet. Similar to C. Albus. Branches more rigid. Large, clear yellow, pea-shaped flowers, borne profusely in early spring.

	Each	Lots of 10
Potted	\$.60	\$5.00
Field grown, heavy.....	1.50	

SPARTIUM JUNCEUM (Spanish Broom). Strong, quick-growing shrub of upright growth. Branches clear green, cylindrical and almost devoid of leaves. Large, pea-like, bright yellow, fragrant flowers. Continuous bloomer.

	Each	Lots of 10
Potted	\$.60	\$5.00

CALLISTEMON LANCEOLATUS (Bottle Brush). Leaves short and evergreen. Flowers are usually in shades of red and very showy. Blooms in early summer.

	Each	Lots of 10
Potted	\$.75	\$6.00

CAMELLIA JAPONICA. 10 feet. Handsome shrub. Dark green, glossy leaves. Flowers single and double, ranging through pink, red and white. Does best on north side of building. Prefers shade.

	Each	Lots of 10
Field grown, 1/2 ft.....	\$2.00	\$17.50

CAMPHORA OFFICINALIS. 40 feet. Very handsome ornamental trees, of regular form. Good for lawn and avenue planting. Foliage clean, bright green. Leaves strongly scented with camphor.

	Each	Lots of 10
Potted, 5/6 ft.....	\$2.00	\$17.50

CARPENTERIA CALIFORNICA. 10 feet. A native shrub of much beauty. Flowers very striking, large, fragrant and pure white, with enlarged yellow stamens.

	Each	Lots of 10
Potted	\$2.00	\$17.50

CASSIA TOMENTOSA. 8 feet. A continuous-blooming, quick-growing shrub with handsome foliage. Quantities of bright golden yellow blooms borne in clusters.

	Each	Lots of 10
Potted	\$1.00	\$7.50

CASUARINA STRICTA (She Oak, Beefwood). 30 feet. A compact Australian exotic especially adapted to dry hillside planting or landscape garden effect. Numerous slender, dense branchlets, plummy and exceedingly decorative. Stem reddish colored.

	Each	Lots of 10
Potted	\$.75	\$6.00

CEANOTHUS THYRSIFLORUS (California Wild Lilac). 20 feet. A native shrub, sometimes becoming a small tree. Leaves small and shiny. A very fine, free-flowering species of beautiful pale blue color. Blooms from May to July.

	Each	Lots of 10
Potted	\$1.00	\$7.50

CEANOTHUS GLORIE DE VERSAILLES HYBRID. Has very large leaves and bright blue flowers. In bloom nearly all summer. Extremely beautiful.

	Each	Lots of 10
Potted	\$1.50	\$12.50

CEDRUS ATLANTICA (Mt. Atlas Cedar) and **CEDRUS ATLANTICA GLAUCA** (Silvery leaf form). Large, pyramidal, open tree with upright leading shoots. Leaves rigid, glaucous green.

	Each	Lots of 10
Field grown, 3/4 ft.....	\$ 5.00	
Boxed Specimens, 10 ft.....	35.00	

CEDRUS DEODORA (Deodor Himalayan Cedar). Becomes a much larger tree than any other of the species, growing under a favorable condition to the height of 200 feet. The lower limbs lie on the ground and the upper ones droop gracefully.

	Each	Lots of 10
Field grown, 2/3 ft.....	\$3.00	
Field grown, 3/4 ft.....	6.00	

Boxed specimens, 6/12 ft. Prices on application.

CEDRUS LIBANI (Cedar of Lebanon). Asia Minor. 100 feet. Vigorous growth; wide-spreading, horizontal branches; dark green foliage; massive and picturesque. Closely resembles C. Atlantica, but grows slower and more compact.

Boxed specimens—prices on application.

CERATONIA SILIQUA (Carob; St. John's Bread). Mediterranean region. 40 feet. Although of great economic value on account of its edible pods, this splendid tree is also one of the handiest ornamentals adapted to our climate. It is of regular growth, with spreading branches forming a rounded head. Leaves are pinnate, with large, leathery, deep green, glossy leaflets. Very resistant to drought and not inclined to become dusty.

	Each	Lots of 10
Potted	\$1.00	\$7.50

CESTRUM AURANTIACUM. 15 feet. Shrub of half climbing habit, with large, oval, waxy leaves. Tubular flowers 1½ inches long, in large, orange-yellow umbels. Blooms in late fall, followed by large, showy, white berries.

	Each	Lots of 10
Potted	\$1.00	\$8.00

CHERRY (California Evergreen). (See Prunus.)

CHOISYA TERNATA (Mexican Orange). 8 feet. Attractive shrub of compact habit, light green leaves divided into three leaflets, covered with white flowers, borne in broad clusters. Very effective for shrubbery borders.

	Each	Lots of 10
Field grown	\$1.00	\$8.00

CHORIZEMA ILLICIFOLIUM. Australia. 3 feet. A slender, flowering shrub with drooping branches and orange red flowers borne in loose racemes; blooms in the spring.

	Each	Lots of 10
Potted	\$1.00	\$8.00

CHRISTMAS BERRY. (See *Heteromeles*.)

CISTUS LADANIFERUS MACULATUS. 4 feet. Small shrub bearing profusion of white flowers about three inches broad. Shaped like a single rose. Petals marked with conspicuous crimson spot. Continuous bloomer.

	Each	Lots of 10
Field grown, heavy.....	\$1.00	\$8.50

CISTUS ROSEA. 3 feet. (Similar to *C. Ladaniferus Maculatus*.) Foliage somewhat smaller; flowers strong pink, almost cerise. A good bloomer.

	Each	Lots of 10
Field grown, heavy.....	\$1.00	\$8.00

CISTUS SALVIFOLIUS. 4 feet. Very fine, small, compact, trailing shrub with small, deep green leaves. Flowers pure white, one and one-half inches across. A good bloomer.

	Each	Lots of 10
Field grown, heavy.....	\$1.00	\$8.00

COPROSMA BAUERI. One of the handsomest of our low-growing shrubs, with round leaves, shiny, deep lustrous green, which refuse to hold dust. Berries yellow. Plant has more or less prostrate habit.

	Each	Lots of 10
Field grown	\$1.25	\$10.00
Potted75	6.00

COPROSMA BAUERI VARIEGATA. Variety of preceding, differing only in the very conspicuous yellow variegation of the leaves. Probably the showiest variegated plant in our collection.

	Each	Lots of 10
Potted	\$1.50	\$12.50

CORONILLA GLAUCA. 3 feet. A very graceful small shrub. Fine glaucous foliage. Fragrant flowers, deep golden yellow, in crown-like clusters. Blooms throughout summer.

	Each	Lots of 10
Potted	\$1.00	\$8.00

COTONEASTER ACUMINATA (Nepalense). 6 feet. Semi-evergreen shrub with large, downy, pointed leaves. Carries pinkish white flowers in June, followed by small, deep red berries.

	Each	Lots of 100
Field grown, 2/3 ft.....	\$1.50	\$12.50

COTONEASTER ANGUSTIFOLIA. Growth spreading and sometimes spiny. Leaves long Field grown, 3/4 ft..... 2.00 17.50 and narrow. Berries very abundant, orange yellow and hold their color throughout the winter.

	Each	Lots of 10
Field grown, 2/3 ft.....	\$1.50	\$12.50
Field grown, 3/5 ft.....	2.00	17.50

COTONEASTER FRANCHETTI. China. 8 feet. Growth upright. Well distinguished by its very arching branches, which give it a most graceful habit. Leaves about the size of *Cotoneaster acuminata*, but downy. Flowers pink. Berries yellowish red.

	Each	Lots of 10
Field grown, 2/3 ft.....	\$2.00	\$17.50

COTONEASTER FRIGIDA. 20 feet. (Deciduous). Large shrub. Free flowering. Berries scarlet. One of the most beautiful of all the *Cotoneasters* in both fruit and flower.

	Each	Lots of 10
Field grown, 2/3 ft.....	\$1.75	\$15.00
Field grown, 3/4 ft.....	2.50	20.00

COTONEASTER HEROVEANA. A recent introduction of great merit and undoubtedly the finest of the upright growing *Cotoneasters*, having the distinction that its brilliant red berries all face upward in clusters on the upper side of the branches. Of attractive foliage and semi-drooping habit. Berried sprays are shipped as far east as New York.

	Each	Lots of 10
Field grown, 2/3 ft.....	\$2.00	\$17.50
" " 3/4 ft.....	2.50	22.50

COTONEASTER HORIZONTALIS. Low, prostrate variety with stout, horizontal branches. Leaves small, dark green. Large, rose-colored flowers followed by bright red berries in fall. Fine for rockeries and steep slopes.

	Each	Lots of 10
Field grown, 2/3 ft.....	\$2.50	\$20.00
Potted, heavy	1.25	10.00

COTONEASTER MICROPHYLLA. Himalayan Mountains. Prostrate shrub, very densely branched. Leaves minute. Flowers white, followed by purplish-red berries. Excellent for rock gardens and as a ground cover.

	Each	Lots of 10
Field grown, 1½/2 ft.....	\$2.00	\$17.50
" " 1/1½ ft.....	1.25	10.00

COTONEASTER MICROPHYLLA THYMIFOLIA. A variety of preceding of dense, compact growth, with tiny leaves, smaller flowers and berries. A very dainty little plant.

	Each	Lots of 10
Potted, 9/12 in.....	\$1.25	\$10.00

COTONEASTER PANNOSA. 10 feet. Chinese shrub of upright, graceful habit. Leaves deep rich green above, covered beneath with silvery down. Covered with flowers all along the stem, followed by lasting vermilion red berries.

	Each	Lots of 10
Field grown, 2/3 ft.....	\$1.50	\$12.50
" " 3/4 ft.....	2.00	17.50
" " 4/6 ft.....	3.00	25.00

CRATAEGUS PYRACANTHA COCCINEA (Burning Bush). 20 feet. Shrub of upright growth. Small leaves. Hawthorn-like flowers, followed by a profusion of red berries. Most attractive berrying shrub we know.

	Each	Lots of 10
Field grown, 2/3 ft.....	\$1.50	\$12.50

CRATAEGUS PYRACANTHA CRENU-LATA. 10 feet. Very distinct from the preceding sorts. Growth is more compact, branches slender, leaves longer, narrow and glossy. New growth very ruddy. Flowers about the same, but berries clear, bright red. It is about the earliest red-berry-bearing shrub, as color is fully developed by August. Will endure considerable shade.

	Each	Lots of 10
Field grown, 2/3 ft.....	\$1.50	\$12.50

CRATAEGUS PYRACANTHA LALANDI. Similar to *Crataegus pyracantha*, excepting that branches are more slender and berries bright orange yellow.

	Each	Lots of 10
Field grown, 2/3 ft.....	\$1.50	\$12.50

CRATAEGUS PYRACANTHA YUNNANENSIS. A splendid form of the preceding; growth horizontal and more vigorous; foliage larger and glossy; flowers white and followed by masses of large, bright red berries, which remain on the plant until early spring. Excellent for general ornamental planting; birds do not molest the fruit.

	Each	Lots of 10
Potted, heavy, 2/3 ft.....	\$1.25	\$10.00

CRYPTOMERIA ELEGANS (Elegant Japanese Cedar). Fine, low, dense tree with horizontal and pendulous, feathery branchlets. Leaves soft, bronzy crimson in fall and winter.

	Each
Field grown, 2/3 ft.....	\$3.50

CUPRESSUS ARIZONICA. Tree of rather moderate growth and of slender pyramidal habit. Foliage pale, glaucous green and turning brown in the winter months.

	Each	Lots of 10
Field grown, 3/4 ft.....	\$2.50	\$20.00

CUPRESSUS MACROCARPA (Monterey Cypress). A native of California and one of the most desirable evergreens. An excellent windbreak and stands exposure as well as if not better than any tree we have experimented with, whether indigenous or exotic. Vigorous habit and stately proportions. Grows well in any soil. Foliage bright green, stands pruning well and makes a dense, compact hedge.

	Each	Lots of 10	Lots of 100
Field grown, 1/2 ft.....	\$.75	\$ 6.00	\$ 50.00

Field grown, 3/4 ft.....	\$ 5.00
" " 4/5 ft.....	7.50
" " 5/6 ft.....	10.00

CHAMAECYPARIS LAWSONIANA ALUMI. 20 feet. A variety of Lawson Cypress, of dense growth and columnar habit. Foliage very glaucous, with decidedly bluish metallic hue. Grafted stock.

	Each
Field grown, 1 ft.....	\$1.50
Specimens, 3/4 ft.....	7.50

CHAMAECYPARIS LAWSONIANA ERECTA VIRIDIS. A remarkably handsome variety, differing in its color and compact growth. The branchlets all stand vertically and close together. The foliage is a clear, rich green with no glaucous markings. Develops very symmetrically into a beautiful specimen for individual planting. Grafted.

	Each
Field grown, 2/3 ft.....	\$6.00

DAPHNE ODORA. 4 feet. Slow-growing shrub with foliage dark bright green. Flowers massed in dense clusters at ends of branches. White or creamy color and extremely fragrant. Winter blooming.

	Each
6-inch pots	\$5.00

DAPHNE ODORA MARGINATA (pink). Differs from above in that foliage is edged creamy white and flowers are pink.

	Each
Potted specimens, cut back.....	\$12.50

DIOSMA ERICOIDES (Breath of Heaven). 5 feet. Compact shrub with heath-like foliage with agreeable aromatic fragrance. Small, white, star-shaped flowers borne on points of twigs. Branchlets covering entire bush.

	Each	Lots of 10
Field grown, 1 ft.....	\$.75	\$6.00
" " 1 1/2 ft.....	1.00	8.00

DRACAENAS. (See Palms.)

ELEAGNUS PUNGENS ARGENTEA. 6 feet. Japan. Striking shrub with rather large, creamy margined leaves, slightly wavy. An attractive and ornamental shrub.

	Each	Lots of 10
Field grown, 1/2 ft.....	\$1.50	\$12.50

ERICA

Much branched, low growing evergreen shrubs with needlelike leaves in whorls of three to six and great numbers of small flowers ranging from white through shades of pink and purple, of which the most are bell-shaped or tubular.

We recommend the heather particularly on account of its beauty and the durability of its flowers. Most varieties hold their flowers for a period of six weeks and often longer. When cut it is unexcelled for decorative purposes, flower baskets, etc. The innumerable varieties make it possible to have Heather in bloom at any season in California.

All the care necessary is to give them a light soil, plenty of water, and a prune back immediately after flowering, so as to encourage the forming of young growths on which they will flower the following season.

We cannot too highly recommend Heather as a shrub of service and beauty.

ERICA CODONOIDES VEITCHII. A strong grower, soft-green foliage, white with pale pink shading, flowering from February to May.

	Each	Lots of 10
Field grown, 1/1½ ft.....	\$1.50	\$12.50

ERICA LUSITANICA. Similar to Codonoides veitchii, except flowers of deeper pink shading. December to March.

	Each	Lots of 10
Field grown, 1/1½ ft.....	\$1.50	\$12.50

ERICA MEDITERRANEA (Mediterranean Heath). Strong grower; dense, dark green foliage; produces in endless profusion masses of beautiful pale pink flowers from December to April.

	Each	Lots of 10
Field grown, 1/1½ ft.....	\$1.00	\$ 8.00
Field grown, 2/3 ft.....	1.50	12.50

ERICA MELANTHERA. One of the hardiest of Heaths; forms long spikes thickly covered with purple bells; blooms from fall to spring (one of the best).

	Each	Lots of 10
Field grown, 2/3 ft.....	\$1.50	\$12.50
Standards, 12-inch heads	5.00	40.00

ERICA PERSOLUTA ALBA. Rapid grower, stands pruning after each flowering season. When flowering, the plant is a mass of beautiful white flowers, foliage light green. March to April flowering.

	Each	Lots of 10
Field grown, 1/1½ ft.....	\$1.25	\$10.00

ERICA PERSOLUTA ROSEA. Neat upright habit. When in flower shows spikes of pink flowers. Rapid grower. February to April.

	Each	Lots of 10
Field grown, 1/1½ ft.....	\$1.50	\$12.50

ERICA REGERMINANS OVATA. Graceful sprays. Branches completely covered with lovely purple bells; delights in sunny exposure. November to January.

	Each	Lots of 10
Field grown, 1/1½ ft.....	\$1.50	\$12.50

ERICA TRIUMPHANS. Rapid grower; pea green foliage; flowers white, flowering in January and February.

	Each	Lots of 10
Field grown, 1/1½ ft.....	\$1.50	\$12.50

ERICA BLANDA. Foliage soft green, growing all around stems. Flowers beautiful light pink, tubular in form, forming midway up stems and continuing to the tips of branches. July to November.

	Each	Lots of 10
Potted, 1/1½ ft.....	\$1.50	\$12.50

5-inch pots, 2/3 ft.....	\$.75	\$6.00
6-inch pots, 2/3 ft.....	1.00	7.50

FUCHSIA MICROPHYLLA. A very dainty and attractive form of Fuchsia, with small, dark green foliage and bright red blossoms.

	Each	Lots of 10
4-inch pots	\$.60	\$5.00

GREVILLEA ROBUSTA (Silk Oak). 50 feet. A rapid growing tree with large, fern-like, deeply dissected leaves. Orange-yellow flowers. Sweetly scented. Drought resisting.

	Each	Lots of 10
Potted	\$.75	\$6.00

GREVILLEA THELMANNIANA. A beautiful dwarf Australian shrub with fine, soft, needle-like foliage and very curious and distinct bright red flowers.

	Each	Lots of 10
Potted	\$.75	\$6.00

HABROTHAMNUS ELEGANS (*Cestrum elegans*). Mexico. 8 feet. Semi-climbing, slender, quick-growing shrub, with graceful drooping branches covered with purple down. Flowers tubular, one inch long, purplish red, in clusters at the ends of the branches. Flowers followed by red fruits borne in clusters.

	Each	Lots of 10
Potted	\$1.00	\$7.50

HAKEA PUGIONIFORMIS. Very hardy, drought-resistant evergreen, of great value in the landscape where water is scarce.

	Each	Lots of 10
Potted	\$1.00	\$7.50

HEATH or HEATHER. (See *Ericas*.)

HETEROMELES ARBUTIFOLIA (California Redberry; Toyon). 30 feet. A native evergreen berrying shrub. Leaves stiff, glossy, deep green, sharply serrated. Flowers white, in broad panicles, followed by clusters of bright red berries, during winter. Used extensively for Christmas decoration. Excellent for hillside planting.

	Each	Lots of 10
Potted, 1½/2 ft.....	\$1.25	\$10.00
Potted, 1/1½ ft.....	1.00	7.50

HOLLY. (See *Ilex*.)

HYDRANGEA HORTENSIS. China; Japan. 8 feet. The most common form in California. Large leaves, practically an evergreen; pink flowers in immense cymes one foot in diameter. Blooms all summer.

	Each
Balled, 1½/2 ft.....	\$1.00
" 9/12 in.....	.75

HYPERICUM MOSERIANUM (Gold Flower). Low, creeping shrub of compact growth, with clear, light green leaves. Flowers two inches in diameter. Deep golden yellow. A very profuse bloomer. Excellent for shrubbery bases, herbaceous borders and rockeries.

	Each	Lots of 10
Field grown, 1/1½ ft.....	\$.75	\$6.00
Potted60	5.00

HYPERICUM CALYGINUM. Similar to above, but extremely drought resistant. Very useful as ground cover.

	Each	Lots of 10
Potted	\$.25	\$2.00

ILEX (Holly). Well-known tree with leathery dark green, prickly leaves. Flowers inconspicuous, followed by numerous red berries on fertile plants. We have in stock fine berried specimens of both the Holland and true English Holly of all sizes. All self-fertile plants.

	Each
Established field grown, 3 ft.....	\$ 5.00
Established field grown, 5 ft.....	15.00
Established field grown, 6 ft.....	25.00

JUNIPERUS CHINENSIS. 60 feet. Very handsome, thickly branched tree of very dense growth. Foliage glaucous green, minute and pointed.

	Each
Field grown, 2/3 ft.....	\$4.00

JUNIPERUS COMMUNIS.

	Each
Field grown, 1½/2 ft.....	\$2.50

JUNIPERUS EXCELSUS STRICTA (Upright Juniper). Asia Minor. 30 feet. This variety differs from the type, principally in having a more tapering outline; foliage decidedly glaucous, giving a distinct grayish aspect; a pretty species deserving a place in home grounds.

	Each
Field grown, 2/3 ft.....	\$4.00

JUNIPERUS HIBERNICA (Irish Juniper). A beautiful, distinct variety of erect, dense, columnar growth. Branches upright; leaves glaucous when young.

	Each
Field grown, 2/3 ft.....	\$2.50
" " 4/5 ft.....	7.00

JUNIPERUS PROCUMBENS (Japanese Prostrate Juniper). Dense, slow-growing, dwarf, prostrate shrub with creeping branches. Foliage minute and glaucous. Excellent for rockeries and Japanese gardens, also used as borders. A very interesting shrub.

	Each
Field grown, 1/1½ ft.....	\$2.50
Specimens—prices on application.	

JUNIPERUS SABINA. 10 feet. Prostrate shrub. Slender, trailing branches; dwarf habit. Foliage delicate, pointed, bluish or glaucous green. Well adapted for rock work and will thrive in any soil.

	Each
Field grown, 1/1½ ft.....	\$2.00

JUNIPERUS CHINENSIS PFITZERIANA (Pfitzer's Juniper). A new and very graceful variety. Develops a large number of long, slender, tapering shoots clothed with fine sage-green foliage.

	Each
Field grown, 2/3 ft.....	\$3.00
Boxed specimens, 3/4 ft.....	5.00

LAURELS

PRUNUS LAURO CERASUS (English Laurel). Very handsome, tall-growing and spreading shrub. Leaves broad, heavy, clear green, slightly serrated. Flowers in spring, white, borne in racemes, followed by black, cherry-like fruit.

PITTOSPORUM TOBIRA. China. 10 feet. Dense globular shrub. Leaves obovate, thick and leathery, dark green above, lighter below. Covered with numerous creamy, scented flowers, much like orange blossoms.

	Each	Lots of 10
Field grown, 9/12 in.....	\$1.00	\$8.00

PITTOSPORUM TOBIRA VARIEGATUM. Similar in habit to above, but with leaves strongly and conspicuously margined white. One of the handsomest shrubs we offer.

	Each	Lots of 10
Field grown, 9/12 in.....	\$1.00	\$8.00

PITTOSPORUM UNDULATUM (Australian Daphne; Victorian Box). 40 feet. Large shrub or small tree with rich, deep green foliage, wavy margined. Flowers creamy white. Very fragrant. May be used as a hedge plant or as a street tree. A very clean and most effective shrub for group planting.

	Each	Lots of 10
Field grown, 1/1½ ft.....	\$1.00	\$8.00

POLYGALA DALMAISIANA. Dense, globular shrub of moderate growth, with slender branches of soft, pleasing appearance and slightly glaucous. Flowers pea-shaped and magenta pink. This shrub is constantly covered with flowers.

	Each	Lots of 10
Field grown, 1/1½ ft.....	\$1.00	\$8.00

PRUNUS. (See Laurel.)

PRUNUS ILICIFOLIA. Well-known native shrub, widely used for hedges. Leaves very glossy and prickly, like those of English Holly.

	Each	Lots of 10
Potted, 1/2 ft.....	\$1.25	\$10.00

PRUNUS INTEGRIFOLIA (Catalina Island Cherry). A variety of the former, but with considerably larger and more pointed leaves. Edges not so prickly.

	Each	Lots of 10
Potted, 1/2 ft.....	\$1.25	\$10.00

QUERCUS AGRIFOLIA (California Live Oak). 50 feet. The well-known grand old California evergreen adds so much beauty to our lowland scenery, where it abounds and grows to perfection. Many refuse to plant this on account of its supposedly slow growth. The impression is entirely erroneous, as with care and water its grows very rapidly, and quickly forms a fine tree.

	Each
Boxed specimens, 10/12 ft.....	\$20.00
Boxed specimens, 8/10 ft.....	15.00
Potted, 3/4 ft.....	2.00

RAPHIOLEPIS JAPONICA OVATA. 12 feet. Low-growing, compact shrub with leathery, dark green leaves, round and lustrous. Flowers waxy and white. Well suited to warm localities.

	Each	Lots of 10
Potted	\$1.00	\$8.00

RETINOSPORA OBTUSA NANA and **RETINOSPORA OBTUSA NANA AUREA** (Golden form). With spreading, graceful foliage and bright green, glaucous beneath. Much used for tub work and in Japanese gardens.

Specimens—prices on application.

RETINOSPORA FILIFERA and **RETINOSPORA FILIFERA AUREA** (Golden form). Evergreen pendulent Thuya with fine, feathery, green foliage, pendulous.

Specimens—prices on application.

RHODODENDRONS. We cannot too highly recommend this magnificent class of ornamental evergreen shrubs, especially for grouping where rich color effects are desired. To produce the most charming effects, they should be planted in groups in moist, shady situations, where soil is light and free of alkali. Their dark green foliage is exceedingly attractive even when the blooming season is past. Colors range from white through shades of red and purple. Bloom during winter months. We make a specialty of these plants.

In variety, field grown,	Each	Lots of 10
2/3 ft.	\$3.50	\$5.00

RHODODENDRON PINK PEARL. The finest of the pink-flowering varieties; carries immense trusses of flesh-colored pink flowers.

	Each
Bare roots, heavy, stocky plants, 4/6 ft...	\$2.50

CORNUS (Dogwood). Medium-sized shrubs and small trees with white flowers in numerous clusters. (*C. florida* has large flowers.) Of easy culture and extremely hardy. Exceptionally beautiful in most any situation.

CORNUS SANGUINEA. Quick-growing shrub, fine for water-side planting. Purple or blood-red branches. Downy leaves.

	Each	Lots of 10
Bare roots, 3/4 ft.....	\$1.25	\$10.00

CORNUS ELEGANTISSIMA VARIEGATA. Striking form of Dogwood with foliage beautifully marked with creamy white, tinged with red.

	Each	Lots of 10
Bare roots, 3/4 ft.....	\$1.25	\$10.00

CORNUS ALBA SIBIRICA (Siberian Dogwood). 10 feet. Growth erect. Branches bright red, particularly conspicuous in winter. Flowers creamy; berries light blue.

	Each	Lots of 10
Bare roots, 3/4 ft.....	\$.75	\$6.00

CALYCANTHUS FLORIDUS (Common Sweetshrub). 3 to 6 feet. Flowers dark reddish brown with spicy fragrance.

	Each	Lots of 10
Bare roots, 2/3 ft.....	\$.75	\$6.00

CATALPA SPECIOSA (Western Catalpa). 50 to 100 feet. Desirable ornamental; quick growth; showy panicles of white flowers.

	Each
Bare roots, 8/10 ft.....	\$1.50

CYDONIA JAPONICA (Japan Scarlet Quince). Shrub with spreading, spiny branches; leaves glossy, sharply serrated. Flowers scarlet red, in clusters 1½ to 2 inches across. Very lasting when cut.

	Each	Lots of 10
Bare roots, 2/3 ft.....	\$1.00	\$7.50

DIERVILLA (Weigela). A most desirable class of free-flowering shrubs. In late spring they are simply a mass of trumpet-shaped flowers showing a profusion of bloom that is almost unequalled. Colors in the different varieties range from nearly white through pink to deep red and crimson. Their striking foliage contrasts finely with other shrubs, while for borders and interspersed among groups of trees they are very effective. Prune after flowering in the summer.

	Each	Lots of 10
Eva Rathke (red), bare roots, 2/3 ft.....	\$.75	\$6.00
Rosea (pink), bare roots, 2/3 ft.75	6.00

DEUTZIA CRENATA. Single and double. Japanese shrub with flowers in drooping racemes, white, tinged with pink. Blooms in spring and early summer. Hardy and of easy cultivation.

	Each	Lots of 10
Bare roots, 2/3 ft.....	\$.75	\$6.00

DEUTZIA FORTUNEI. 6 feet. Handsome hybrid of strong growth. Flowers are large, single and pure white.

	Each	Lots of 10
Bare roots, 2/3 ft.....	\$.75	\$6.00

DEUTZIA LEMOINEI. 3 feet. Growth similar to preceding, but a little more vigorous. Flowers pure white. Very free flowering.

	Each	Lots of 10
Bare roots, 2/3 ft.....	\$.75	\$6.00

DEUTZIA (Pride of Rochester). Tall growing. Flowers large and double; white, slightly tinged pink on back of petals.

	Each	Lots of 10
Bare roots, 2/3 ft.....	\$.75	\$6.00

ELAEAGNUS LONGIPES. Japan; China. 6 feet. Very ornamental shrub of spreading habit. Branchlets ruddy brown. Leaves silvery, brown dotted beneath. Flowers small but numerous, yellowish white and fragrant, followed by scarlet fruits nearly an inch long, on elongated stalks. The fruit is not only edible, but adds greatly to the effect of the plant.

	Each
Bare roots, 2/3 ft.....	\$1.00

EXOCHORDA GRANDIFLORA (Pearl Bush). China. 10 feet. Well-known garden shrub, 6 to 8 feet. Covered with white flowers in terminal racemes in spring. Open habit.

The flower buds are globular and pearly in appearance, giving this shrub its name.

	Each	Lots of 10
Bare roots, 2/3 ft.....	\$.75	\$6.00

FAGUS SYLVATICA (European Beech). Fine tree with feathery, short and deep glossy green foliage. Grows to a height of 80 feet.

	Each
Tubbed specimens, 6/7 ft.....	\$7.50

FAGUS SYLVATICA PURPUREA (Purple Leaved Beech). Growth slow and compact. Leaves glossy and clean, first purplish crimson, then changing to a deep lustrous purple. Color retained through the season. Most desirable of all the purple-leaved trees.

Each

Tubbed specimens, 6/7 ft.....\$7.50

FRAXINUS EXCELSIOR PENDULA. Weeping form of Ash. One of the best pendulous trees for forming arbors and shady seats.

Each

8 ft. stem.....\$4.50

FRAXINUS AMERICANA (American White Ash). Tall tree, rapid growth, trunk clean and straight. Rounded head.

Each Lots of 10

8/10 ft.\$1.75 \$15.00

FORSYTHIA SUSPENS A (Golden Bell). China. 8 feet. Rather tall, but with very drooping branches. Can be trained over arbors.

Each

Bare roots, 3/4 ft.....\$1.50

FORSYTHIA FORTUNEL. A variety of more upright and vigorous growth. Petals more slender.

Each Lots of 10

Bare roots, 2/3 ft.....\$.75 \$6.00

GINGKO BILOBA (Maiden Hair Tree) (*Salisburia adiantifolia*). 60 feet. One of the most remarkable trees in cultivation. Allied to the conifers and has the regular outline of a fir. Leaves are fan-shaped, clear green during summer and changing to a clear, soft yellow in the fall. Apparently extinct except in cultivation. Has been preserved from antiquity in grounds about the temples of China and Japan.

Each Lots of 10

Bare roots, 4/6 ft.....\$1.75 \$15.00

HYDRANGEA PANICULATA. Deciduous shrub with dense, round head. Bears large, oblong trusses of very beautiful and showy white blooms.

Each Lots of 10

Bare roots, 2/3 ft.....\$.75 \$6.00

LAGERSTROEMIA INDICA (Crape Myrtle). China. Strong-growing shrub, producing an abundance of soft, fringed flowers. Flowers bright pink, borne in large racemes at tips of new growths. Bark smooth.

Each Lots of 10

Bare roots, 3/4 ft.....\$1.50 \$12.50

Pink, white and purple,

2/3 ft.1.50 12.50

LIQUIDAMBAR STYRACIFLUA (Sweet Gum). Slow-growing tree with corky branches. Leaves similar to maple, star-shaped. Particularly attractive for the gorgeous coloring of the autumn and winter foliage.

Each

Bare roots, 3/4 ft.....\$1.50

LABURNUM VULGARE (Golden Chain). S. Europe. 20 feet. A beautiful small tree of rather quick growth. Leaves clover-shaped, soft, pleasing green; do not change color in fall. Flowers fragrant, bright yellow, in long, drooping racemes, suggestive of yellow Wistarias borne on a tree.

Each

Bare roots, 5/6 ft.....\$1.75

LIRODENDRON TULIPFERA (Tulip Tree). Tall tree with leaves as broad as long, peculiar shape, 6 inches long, somewhat the shape of a violin. Flowers green and yellow, marked orange within, at the base about 2 inches long. Size and shape of a tulip.

Each

Bare roots, 8/10 ft.....\$2.50

MALUS IOENSIS PLENA (Bechtel Crab). Double pink flowers like small clustered roses.

Each

Bare roots, 3/4 ft.....\$1.50

MALUS PARKMANI (Parkman Crab). 12 to 20 feet. A shapely small tree, forming narrow, vase-like head. Globose reddish fruit size of a small pea. Very fine rose-colored flowers on long, slender stems.

Each

Bare roots, 3/4 ft.....\$1.50

MALUS SCHEIDECKERI (Scheidecker Crab). Small tree of pyramidal habit, with small pink flowers in great profusion.

Each

Bare roots, 3/4 ft.....\$1.50

MALUS NIEDWETZKYANA. A curiosity from Siberia. The entire tree—bark, wood, fruit and foliage, except old leaves—is red. Free bloomer and bears edible fruit.

Each

Bare roots, 3/4 ft.....\$1.50

MAGNOLIA. Popular large shrub which in springtime is covered with large white and purple flowers 3 to 5 inches in diameter. Often fragrant. Leaves appear after the flowering period is over.

MAGNOLIA SOULANGEANA (Soulange's Magnolia). Large white and purple flowers.

Each

Tubbed, 4/5 ft.....\$7.50

MELIA UMBRACULIFERA (Texas Umbrella). Well-known compact tree, dense foliage and shade. Very fast grower. The heavy, evenly branched kind.

Each

Bare roots, 8/10 ft.....\$1.50

MORUS ALBA TATARICA PENDULA (Tea's Weeping Mulberry). Graceful and hardy weeping trees, forming a perfect umbrella-shaped head, with long, slender, willow branches drooping to the ground.

Each

Bare roots, 6/8 ft.....\$4.00

PHILADELPHUS (The Mock Oranges). A very vigorous class of shrubs, with large, handsome foliage and with white showy flowers in terminal racemes, or solitary on short branchlets, appearing in May and June. Very fragrant, with an odor of the orange blossoms, hence the name. They are well adapted to shrubberies, thriving in any well-drained soil. Most of the varieties form large sized shrubs 12 to 15 feet high. Pruning should be done after flowering.

PHILADELPHUS CORONARIUS (Garland Syringa). Europe; Asia. 10 feet. Flowers creamy white, medium sized, in very short, dense racemes; as fragrant as orange blossoms.

	Each	Lots of 10
Bare roots, 2/3 ft.....	\$.75	\$6.00

PHILADELPHUS INODORUS (P. grandiflorus) (Large-flowered Syringa). S. E. United States. 10 feet. Of stronger growth than the common Garland. Flowers borne profusely and larger, but not so fragrant.

	Each	Lots of 10
Bare roots, 2/3 ft.....	\$.75	\$6.00

PLATANUS (Sycamore). Hardy, fast-growing trees, reaching 80 to 100 feet; well suited to Southern California and growing with little or no water. Very large, maple-like leaves. Bark mottled gray and white. Seed balls round, heavy, rough, on slender stems.

PLATANUS ORIENTALIS (European Plane or Sycamore). Broader with more rounded outline than other Sycamores. Stock scarce.

	Each	Lots of 10
Bare roots, 10/12 ft.....	\$2.00	\$17.50
" " 12/14 ft.....	2.50	20.00

PRUNUS PISSARDI. Handsome small tree with rich purple leaves, retaining its color; the best of the purple-leaved varieties. Highly recommended where color foliage is desired. Covered profusely in early spring with beautiful white flowers and later with wine-red fruits.

	Each
Bare roots, 5/6 ft.....	\$2.00

PRUNUS PERSICA (China Flowering Peach). China. Leaves coarsely serrated. Flowers solitary, pink appearing before the leaves.

	Each
Bare roots, 4/6 ft.....	\$1.75
" " 6/8 ft.....	2.50

PRUNUS TRILOBA (Double Flowering Plum). Leaves three-lobed. Flowers double, rosy pink, appearing before the leaves. Very handsome. Fruit small, red.

	Each
Bare roots, 3/4 ft.....	\$1.50

PRUNUS DAWN.

	Each
Bare roots, 6/7 ft.....	\$2.50

PRUNUS VESUVIUS.

	Each
Bare roots, 4/6 ft.....	\$2.00

PRUNUS CERASUS (Flowering Cherry). We have a notable selection of these beautiful flowering cherries. Prices on application.

PRUNUS CERASUS PENDULA (Weeping Japanese Cherry). Of exceptional beauty.

	Each
Specimens, 4/5 ft.....	\$7.50

POPULUS (Poplar). Fast-growing large trees, hardy but requiring water for best results. Somewhat subject to damage by borers while young.

POPULUS NIGRA ITALICA (Lombardy or Italian Poplar). Tall-growing, columnar tree, widely known for its decided individuality, its light colored leaves making a strong contrast with most other trees.

	Each	Lots of 10
Bare roots, 10/12 ft.....	\$1.50	\$12.50
" " 12/14 ft.....	2.00	15.00

POPULUS GRANDI DENTATA PENDULA. One of the showiest of the top-grafted weeping trees. Graceful drooping branches form a natural summerhouse. Leaves deeply serrated.

	Each
Unusual specimens, 10 ft.....	\$10.00

POPULUS DELTOIDES CAROLINENSIS (Carolina Poplar). A very rapid-growing variety with large leaves; grows to a large size in short time. Valuable for street planting.

	Each	Lots of 10
Bare roots, 10/12 ft.....	\$1.25	\$10.00
" " 12/14 ft.....	2.00	15.00
15/16 ft., bare roots, specimens 6/8 ft. spread.....	\$5.00	

PUNICA (Pomegranate). The flowering Pomegranates are of very great value. Perfectly adapted to our climate, they are in bloom throughout the summer, lending their brilliant coloring at a period when it is greatly needed and appreciated. Foliage is neat and glossy.

	Each	Lots of 10
Bare roots, 2/3 ft.....	\$1.00	\$8.00

PUNICA GRANATUM NANA (Dwarf Pomegranate). Very low, compact, free-flowering form. Flowers red, semi-double. Fine for low hedges.

	Each
Potted	\$1.50

RIBES (Currant). Shrubs blooming in early spring. The different kinds are very distinct in color and growth. All bloom profusely and are highly attractive. Thrive in any soil or situation; good for grouping and borders.

RIBES AUREUM (Yellow-Flowering Currant). Foliage shiny. Flowers yellow, tipped with red, are borne in small clusters all along branches; have a pleasing spicy fragrance.

	Each	Lots of 10
Bare roots, 2/3 ft.....	\$.75	\$6.00

RIBES GORDONIANUM. Flowers crimson and yellow, in hanging clusters.

	Each	Lots of 10
Bare roots, 2/3 ft.....	\$.75	\$6.00

RIBES SANGUINEUM (Red-Flowering Currant). California. Handsome shrub with five-lobed, rounded leaves and ruddy branches. Flowers, borne in drooping racemes, are a beautiful shade of rosy red or very deep pink. Berries large, glaucous blue. Both foliage and flowers are very handsome.

	Each	Lots of 10
Bare roots, 2/3 ft.....	\$.75	\$6.00

RHUS (Sumach). Few shrubs are more picturesque or so little used. Their beauty lies in the gorgeousness of their foliage and in the Smoke Tree in the downy masses surrounding the seeds in mid-summer, apparently enveloping the trees in puffs of smoke.

RHUS COTINUS (Purple Fringe; Smoke Tree). Asia. 15 feet. Well-known large shrub with rounded leaves. Flowers borne in peculiar, pale purple, plummy masses. Entirely unique.

	Each	
Bare roots, 2/3 ft.....	\$1.00	

RHODOTYPOS KERRIOIDES (Jetbead). 3 to 6 feet. Large, pure white flowers in May or June. Shiny black and very showy seed.

	Each	Lots of 10
Bare roots, 2/3 ft.....	\$.75	\$6.00

ROBINIA PSEUDACACIA (Common or Black Locust). Rapid-growing tree, largest of the genus. Flowers in long, pendulous racemes; white and fragrant. Easy to culture.

	Each	Lots of 10
Bare roots, 10/12 ft.....	\$1.50	\$12.50

ROBINIA HISPIDA (Rose-Acacia). Beautiful tree with deep pink flowers in long, loose racemes in May and June. Leaves pinnate. Flowers pea-shaped. Naturally a weak, shrubby growth. When grafted on vigorous stock becomes a strong tree.

	Each	
Bare roots, 4/5 ft.....	\$2.00	

ROBINIA PSEUDACACIA DECAISNEANA (Pink-Flowering Locust). Remarkable for its vigorous growth and fine, pink-colored flowers, which it produces in great abundance. Entirely distinct from Rose Acacia, which see above.

	Each	
Bare roots, 8/10 ft.....	\$2.50	

SALIX BABYLONICA (Weeping Willow). 30 to 40 feet. Universally known. Tree of strong, spreading growth, with slender, drooping branches.

	Each	Lots of 10
Bare roots, 8/10 ft.....	\$1.50	\$12.50

SALIX VITELLINA AUREA (Golden Willow). Bark bright green, branches golden yellow, especially before the leaves appear in spring.

	Each	Lots of 10
Bare roots, 6/8 ft.....	\$1.25	\$10.00

SAMBUCUS (Elder). Large shrubs of erect, extremely rapid growth, with large, pinnate leaves; flowers white, small, in large cymes. Extremely hardy and useful in the garden beautification.

	Each	Lots of 10
Bare roots, 3/4 ft.....	\$.75	\$6.00

SAMBUCUS AUREA (Golden Elder). Foliage deep yellow throughout the season.

	Each	Lots of 10
Bare roots, 3/4 ft.....	\$1.00	\$7.50

SAMBUCUS LACINIATA. Cut-leaved form of above.

	Each	Lots of 10
Bare roots, 3/4 ft.....	\$1.00	\$7.50

SORBUS AUCUPARIA (European Mountain Ash; Rowan Tree). 40 feet. Handsome, small tree of erect growth. Leaves pinnate, leaflets serrate. Flowers white, in flat clusters, four or five inches broad, followed by rather large, red berries. Very handsome at any season.

	Each	Lots of 10
Bare roots, 8/10 ft.....	\$2.50	\$20.00

SOPHORA JAPONICA (Pagoda Tree). Asia. 60 feet. A handsome tree of medium size, with dark green bark. Leaves are pinnate; leaflets dark green above, lighter beneath. Bears small, cream-colored, pea-shaped flowers in racemes about a foot long.

	Each	Lots of 10
Bare roots, 4/6 ft.....	\$1.50	\$12.50

SPIRAEA BUMALDA ANTHONY WATERER. Dwarf, but erect form, growing about three feet high. Flowers crimson. Free blooming. Flowers in flattened heads at ends of branches.

	Each	Lots of 10
Bare roots, 2/3 ft.....	\$.75	\$6.00

SPIRAEA CANTONIENSIS (Reevesi). 4 feet. Sometimes called *Spiraea lanceolata*. Flowers pure white, borne most profusely in dense heads. Holds its leaves through the winter season.

	Each	Lots of 10
Bare roots, 2/3 ft.....	\$.75	\$6.00

SPIRAEA CANTONIENSIS FLORE PLENO. Variety of *Cantoniensis* with very double flowers.

	Each	Lots of 10
Bare roots, 2/3 ft.....	\$.75	\$6.00

SPIRAEA PRUNIFOLIA FLORA PLENA (Southern Bridal Wreath). Small, double, white flowers like shoe buttons, thickly strung along the long, willowy branches. Very pleasing shrub.

	Each	Lots of 10
Bare roots, 2/3 ft.....	\$.75	\$6.00

SPIRAEA VAN HOUTTEI. Garden hybrid. Moderate size. Branches arching and drooping with weight of the flowers, which are borne so freely in spring as to cover plant completely with a mass of snowy bloom. Very beautiful and extremely hardy.

	Each	Lots of 10
Bare roots, 2/3 ft.....	\$.75	\$6.00

SYRINGA (Lilac). This class of beautiful flowering shrubs should be represented by one or more specimens in every garden. They do well in all soils, are extremely hardy and are among the best of our beautiful spring flowering shrubs. There are a large number of hybrids of *Syringa vulgaris* or Common Lilac and our collection comprises a selection of the best. Their fragrance, great range of colors, from dark purple to lilac, pink and white, gives them a prestige as spring-flowering plants. Immediately after blooming they should be pruned. We have a limited stock of the following exceptionally beautiful varieties, prices being \$1.25 each—bare roots:

Chas. Tenth—Lilac.

Congo—Wine red.

Dr. Masters.

Jacques Calot—Very large panicles of rosy-pink blossoms.

Marc Michaeli.

Othello—Dark purplish red.

Princess Alexandra—White, large panicles.

Wm. C. Barry.

Marie LaGraye—Pure white.

L'Oncle Tom.

SYRINGA VULGARIS (Common Purple Lilac).

	Each	Lots of 10
Bare roots, 2/3 ft.....	\$.75	\$6.00

SYRINGA PERSIAN RED.

	Each	Lots of 10
Bare roots, 2/3 ft.....	\$.75	\$6.00

SYMPHORICARPOS (Snowberry). Slender shrubs with fine branches, valued chiefly for their ornamental fruits, which remain on the plants for a long period. They are unexcelled for massing and grouping; do well in shady situations and in a variety of soils.

SYMPHORICARPOS RACEMOSUS (Eastern Snowberry). 5 feet. Indigenous to Eastern States. White berried.

	Each	Lots of 10
Bare roots, 2/3 ft.....	\$.75	\$6.00

SYMPHORICARPOS VULGARIS (Indian Currant; Red-Fruited Snowberry). Eastern United States. 4 feet. Habit similar to the others, but somewhat more compact. Loaded during fall and winter with a profuse crop of dark red, small berries in dense clusters.

	Each	Lots of 10
Bare roots, 2/3 ft.....	\$.75	\$6.00

TAMARIX (Tamarisk). Elegant, fine foliage and handsome flowering shrub, thriving in all soils; one of the best plants for growing near the seashore, as it will bear wind exposure with impunity. Does well also in the interior, thriving under trying conditions where other plants fail. Flowers pink, long, tapering panicles.

TAMARIX AFRICANA. Spikes of pink flowers.

	Each	Lots of 10
Bare roots, 2/3 ft.....	\$.75	\$6.00

TAMARIX GALLICA. Tall with pink flowers.

	Each	Lots of 10
Bare roots, 2/3 ft.....	\$.75	\$6.00

TAMARIX ODESSANA. Asia. Growth erect and compact. Foliage plummy. Appearance entirely distinct from the others. Can be trained into quite a tree.

	Each	Lots of 10
Bare roots, 2/3 ft.....	\$.75	\$6.00

TILIA (Linden). Fine, stately trees of large size and rapid growth. Leaves large and heart-shaped. Flowers yellow, in drooping clusters; intensely fragrant. Well liked by bees for the very abundant nectar. Fine for street and boulevard planting, and as specimens in parks and gardens.

TILIA AMERICANA (American Linden; Basswood). Eastern United States. 75 feet. Fine tree of rapid, erect growth when young, but ultimately forming a fine, broad, round head. Leaves large, light green.

	Each	Lots of 10
Bare roots, 8/10 ft.....	\$1.75	\$15.00

TILIA PLATYPHYLLOS (European Linden; Lime Tree). Europe. 90 feet. The celebrated European street tree. Similar to American, but has smaller, deeper green leaves and red or yellow branches.

	Each	Lots of 10
Bare roots, 8/10 ft.....	\$1.75	\$15.00

ULMUS (Elm). Widely known and popular trees. All are of rapid, erect growth and several species are well adapted for street planting. Very easily transplanted.

ULMUS AMERICANA (American or White Elm). United States. 120 feet. A magnificent tree, native from the Rockies to the Atlantic. Growth is erect, with smaller branches drooping when old. Grows rapidly here.

	Each	Lots of 10
Bare roots, 10/12 ft.....	\$2.50	\$22.50

ULMUS SCABRA HUNTINGDONI (Huntingdon Elm). Of very erect habit and rapid, vigorous growth. Bark clean and smooth. Foliage dense, leaves large, dark green, remaining on the tree until late. Fine for street and avenue planting. The handsomest of all Elms.

	Each	Lots of 10
Bare roots, 8/10 ft.....	\$1.75	\$15.00

ULMUS LATIFOLIA (Scotch Elm). Best and hardiest variety for street and avenue planting.

	Each	Lots of 10
Bare roots, 10/12 ft.....	\$2.50	\$22.50

ULMUS SCABRA PENDULA (Camperdown Elm). Top grafted. Long, pendulous branches, the limbs often spreading horizontally. A beautiful pendant tree.

	Each
Bare roots, 8 ft. stems.....	\$ 4.00
Specimens, 3½/4 in. caliper.....	15.00

VINES AND CLIMBERS

AMPELOPSIS QUINQUEFOLIA (Virginia Creeper). North America. A tall-growing, vigorous vine with very large, deep green foliage, turning scarlet in fall. By means of tendrils or aerial roots at the joints it clings to anything it gets hold of. Fine for walls, verandas or tree trunks.

	Each	Lots of 10
Bare roots	\$.60	\$5.00

AMPELOPSIS STRICTA SEMPERVIRENS. Evergreen variety of the above.

	Each	Lots of 10
Potted	\$.60	\$5.00

AMPELOPSIS VEITCHII (Japanese or Boston Ivy). A hardy, rapid-growing vine. Will grow in any soil. One of the most popular vines for covering walls and buildings. Stands smoke and dust. Leaves are glossy green and turn a reddish copper tint in fall. Dense clusters of deep blue berries.

	Each	Lots of 10
Bare roots	\$.60	\$5.00

BIGNONIA (Trumpet Flower). Among the climbing vines, these beautiful plants are deserving of far more attention than they have ever received. Their flowers are large, showy, of the most delicate shades and colors. For covering walls, rocks, trelliswork, or for climbing trees they have few equals. Some varieties are very hardy, while others will only thrive in localities where severe frosts do not occur.

BIGNONIA CHERERE. Mexico. Leaflets long. Branches inclined to be square. Flowers about four inches long, blood red, yellow at base. Very handsome species.

	Each
Potted	\$1.00

BIGNONIA GRANDIFLORA (B. Chinensis) (Chinese Trumpet Vine). Foliage similar to common Trumpet Vine; flowers of similar color, but shorter, more flaring and much larger spreading lobes, borne in large, open panicles. Makes a beautiful display nearly all summer; superior to the common form.

	Each
Potted	\$1.00

BIGNONIA TWEEDIANA. Argentina. Leaflets long and narrow. Flowers lemon-yellow and usually broader than long. The vine itself is very graceful and handsome and will climb very high. The tendrils are hooked and adhere readily to brick, stone, cement and wood.

	Each
Potted	\$1.00

BIGNONIA VENUSTA. Brazil. Leaflets in threes, dark green, somewhat glossy. Flowers are about three inches long, tubular, in large and numerous clusters; bright orange. Blooms during the winter and early spring. Slightly tender until well established. Where it will thrive it is one of the most gorgeous flowering vines.

	Each
Potted	\$1.00

BOUGAINVILLEA BRAZILIENSIS. This is probably the best variety, covered with brilliant reddish-purple flowers almost the entire year, flowers larger and brighter than the older variety, *Glabra sanderiana*. Bougainvilleas want the hottest, sunniest spots, the south or west side of a building preferred.

	Each
6 in., potted	\$1.50
7 and 8 in. pots, ¾ ft. specimens.....	4.00

BOUGAINVILLEA SPECTABILIS. Extremely attractive climber and from South America, with insignificant real flowers, surrounded by three very showy bracts appearing like flowers and usually so called. Leaves thick and large; bright green. Bracts rosy magenta. Quite hardy and a very profuse bloomer.

	Each
Potted	\$1.50

BOUGAINVILLEA GLABRA SANDERIANA. A free-blooming variety; flowers smaller and not so bright as *Braziliensis*.

	Each
7 and 8 in. pots, ¾ ft. specimens.....	\$4.00

CLEMATIS. Well-known deciduous climbers clinging by their twining leaf-stalks. Flowers vary greatly in size, color and time of blooming. Perfectly hardy here. They require rich, light soil, plenty of moisture with good drainage.

CLEMATIS COCCINEA. Very beautiful variety with scarlet, bell-shaped flowers.

	Each
Bare roots	\$1.00

CLEMATIS HENRYI. Large, pure white bloomer.

	Each
Bare roots	\$1.50

CLEMATIS JACKMANNI. One of the most beautiful and popular of all the Clematis family. Purple and very striking.

	Each
Bare roots	\$1.50

CLEMATIS MONTANA. Vigorous climber, often twenty feet, clinging by their climbing leaf-stalks. Flowers fragrant, rather small, four sepals, almost pure white, becoming pink. Stamens conspicuous yellow.

Each
Bare roots\$1.00

CLEMATIS MONTANA RUBENS. Pink.

Each
Bare roots\$1.00

CLEMATIS PANICULATA. Japan. Flowers in auxiliary in terminal panicles. White, fragrant. Small, but borne in greatest profusion during late summer.

Each
\$.75

CLEMATIS VILLE DE LYON. Red.

Each
Bare roots\$1.50

FICUS REPENS (Creeping Rubber). Small-leaved vine, clinging closely to the wall. Very dark green, almost black; grows slowly while young, giving little covering until two or three years old, but living for years and eventually completely covering large spaces. Very hardy.

Each Lots of 10
Potted\$.60 \$5.00

HONEYSUCKLE (Lonicera). Ornamental vines of varying habit. The climbing honeysuckles are well adapted for walls, arbors and other trellis work. They have handsome, sweet-scented flowers. They can be mixed well with other climbers and also serve as a ground cover. Flowers vary through white, yellow, pink and scarlet. There are many varieties.

Each Lots of 10
Potted\$.50 \$4.00

HEDERA HELIX (Ivy). A high-growing or dense, creeping vine with large, thick, shiny, leathery leaves. Tips of young branches covered with white hair; fruit black, sometimes yellow.

Each Lots of 10
Potted\$.60 \$5.00

HEDERA HELIX ROTUNDIFOLIA. Large-leaved. Dark green type.

Each Lots of 10
Potted\$.75 \$6.00

HEDERA HELIX MICROPHYLLA VARIIEGATA. Very dainty, small-leaved variety with variegated foliage.

Each Lots of 10
Potted\$1.00 \$7.50

JASMINUM (The Jasmines). Interesting plants, some of which grow in the form of shrubs, but the majority are either climbers or trailers. Flowers yellow, white and pink, all of which are very fragrant and born in masses; will grow in a variety of soils and under variable conditions; find wide uses for porch and veranda decorations. Suitable for large plantings as well as small gardens.

JASMINUM FLORIDUM. A new variety with smooth, angled branches and alternate leaves of three to five oval leaflets; flowers golden-yellow, born in terminal clusters. Very fine.

Each
Potted\$.75

JASMINUM BEESIANUM (Pink Jasmine).

Slender growth; small, narrow leaves; twining habit, yet might be pruned to grow as a shrub. Distinguished as being the only pink variety grown in cultivation. Small, pinkish-red flowers; slender, narrow tubes, in spring.

Each
Potted\$.75

JASMINUM PRIMULINUM (Double Yellow Jasmine). China. A recent and very valuable introduction. It is not only the fastest growing Jasmine, but almost the quickest growing climber in our entire list. Leaves of three good-sized leaflets. Flowers clear primrose yellow, very large and usually double. Evergreen.

Each
Potted\$.75
Field grown specimens, 4/5 ft. 3.00

MANDEVILLA SUAVEOLENS (Chile Jasmine). Deciduous vine, bearing white flowers shaped like Jasmine, but far larger and even more fragrant. Remarkable for the long seed pods in pairs, joined at the tips. Summer bloomer.

Each
Potted\$1.00

MUEHLENBECKIA COMPLEXA (Wire Vine; Maiden Hair Vine; New Zealand Mat-tress Vine). A twining, drooping, slender, much-branched plant of rapid growth, leaves small, light green and round. Stems slender, wire-like, deep reddish brown. Whole plant has fern-like appearance. Fine for tree stumps, walls, pergolas, etc. Flowers inconspicuous. If grown on chicken wire, it makes a beautiful, compact hedge.

Each Lots of 10
Potted\$.60 \$5.00

PASSION VINES. A large family of rapid-growing evergreen vines, climbing by tendrils. Flowers showy, complex and star-like. Colors in shades of white, red, blue and orange.

PASSIFLORA COERULEA. Flowers greenish white, corona purple at base, white in middle and blue at ends.

Each Lots of 10
Potted\$.75 \$6.00

TACSONIA MANICATA IGNEA. Flowers scarlet.

Each Lots of 10
Potted\$.75 \$6.00

TACSONIA MOLLISSIMA. Flowers pink.

Each Lots of 10
Potted\$.75 \$6.00

PLUMBAGO CAPENSIS (Cape of Good Hope). A fall blooming vine with pleasing green leaves and pale blue flowers, born in great profusion. It can be trained as a vine, or kept low so as to form an excellent ground cover.

Each Lots of 10
Potted\$.75 \$6.00

TECOMA AUSTRALIS (Wonga-Wonga Vine). Australia. A very valuable evergreen, half-climbing shrub of strong, rapid growth. Dark green, glossy foliage. Large leaflets. Small flowers born profusely in early spring.

Each
Potted\$1.00

WISTERIA. Graceful and quick-growing climbers, unsurpassed for wall coverings, piazzas, pergolas and arbors; flowers born in long, pendulous panicles, varying from white to a rich lilac purple and pea-shaped in formation, which appear in spring before the advent of foliage. Wistaria make gorgeous effects by reason of their profuse and abundant flowering characteristics.

WISTERIA MULTIJUGA (Long Purple Japanese). Flowers racemes long and slender, sometimes 15 to 18 inches. Very strong-growing vine.

Each Lots of 10
Potted\$1.75 \$15.00

WISTERIA MULTIJUGA ALBA. White form of above.

Each Lots of 10
Potted\$1.75 \$15.00

WISTERIA MULTIJUGA PINK. Long, slender clusters of delicate pink blooms. Very beautiful and quite rare.

Each Lots of 10
Potted\$2.00 \$17.50

WISTERIA CHINENSIS ALBA. White sprays of beautiful bloom.

Each Lots of 10
Potted\$1.50 \$12.50

Specimens of above—prices on application.

PALMS

CHAMAEROPS TRACHYCARPUS EX-CELSA (Wind Mill Palm). Asia. Very hardy, compact palm. Trunk covered with coarse brown fibre. Leaf segments narrow and flexible; the outer third usually droops on older leaves. Used for street planting.

Each
Field grown, 3/4 ft.....\$3.00
“ “ 5/6 ft..... 7.50

COCOS AUSTRALIS (Hardy Blue Cocos). This palm will stand more frost and heat, more drought, floods, exposure and hardship of every kind, and yet continue to look better as an ornamental palm or lawn specimen than any other variety. Will survive a temperature of 15 degrees. Silvery-blue, recurved leaf fronds, arching gracefully to the base. Makes trunk very slowly, maintaining its beautiful bushy form until a good size. Fine for tubs or boxes.

Each
Tubbed, 2/2½ ft.....\$ 6.00

Specimens, 18-in. tubs.....	75.00

WASHINGTONIA ROBUSTA (California Fan Palm). Our native Fan Palm. The most common fan-leaved cultivated in the State. Very dense and compact leaved variety. Trunk very short. Leaf stalks armed with spines.

	Each
Field grown, 4/5 ft.....	\$5.00

MISCELLANEOUS PLANTS

AGAVE (Century Plant). Well-known plant suitable for tub culture or tropical effect. Leaves 3 to 6 feet long, 6 to 9 inches wide, fleshy and rigid, ending in spines and having prickled margins, more or less concave. Flowers yellow-green, in dense, globular panicles, and clusters around an erect central stem rising from the center of a rosette of leaves, sometimes reaching the height of thirty feet.

	Each
Potted	\$1.50
Variegated form, field grown.....	3.00

AMARYLLIS BELLADONNA (Belladonna Lily). Cape of Good Hope. A great favorite. Leaves are strap-shaped; appearing during the winter, they die to the ground in early summer. The solid, leafless flower stalks soon appear, attaining a height of two feet or more and bearing a number of beautiful, fragrant, pink, tubular flowers.

	Each	Lots of 10
Potted	\$.75	\$6.00

ASPIDISTRA LURIDA. China. Handsome decorative foliage plant with long, stiff, deep green, wavy leaves, from 1 to 2 feet long. Thrives under most unfavorable conditions, retaining a fresh appearance even when it does not receive sufficient light or water. Excellent as a house plant.

	Each
Potted, 5 in.....	\$1.75

Made up pots or pans, 20c per leaf.

FERNS. We have on hand at all times a fine selection of all of the hardy types of house ferns in six-inch pots and larger, prices ranging from \$1.25 each upwards.

GERANIUM (Pelargonium hortum). Profuse blooming plant with fleshy stems and foliage. Known to everybody. There are an unlimited variety of shades. Very adaptable to California conditions.

	Each	Lots of 10
Potted	\$.25	\$2.00
Ivy-Leaved Geraniums25	2.00

FUCHSIA. The graceful habit of the plants, the excellent coloring and form of the flowers and the profusion of blooms make fuchsias a great garden favorite. Prefers shady situations.

We have a very fine selection of Fuchsias of all the best varieties.

	Each
Potted, 5-in. pots.....	\$.75
" 6-in. pots.....	1.00

ARUNDO DONAX (Giant Reed). Orient; S. Europe. 15 feet. Not a Bamboo, but a woody plant of near relationship and somewhat similar general appearance. Canes are unbranched and bear large, sage-green leaves from top to bottom. Spreads from roots and forms clumps. Good windbreak. Far hardier than any of the Bamboos, hence can be used to excellent advantage where they are too tender.

	Each
Potted	\$1.00

ARUNDO DONAX VARIEGATA. 8 feet. Handsome variety of preceding. Grows about half as tall. Leaves conspicuously marked with broad, creamy white bands running lengthwise. Highly ornamental.

	Each
Field grown, 6/8 ft.....	\$2.50

CYCLAMEN. A pretty, small plant with round, fleshy leaves, born on long stems; flowers of various shades and of peculiar form, appearing from November to May.

	Each
5 inch	\$1.25
6 inch	1.50
7 inch	3.00
8 inch	5.00

EULALIA JAPONICA. Asia. Hardy perennial grass, growing four to five feet and resembling Pampas Grass on a smaller scale. The blooms have clusters of silky hairs, giving them a beautiful feathery appearance.

	Each
Field grown, 4/5 ft.....	\$1.50

GERBERA JAMESONI (Transvaal Daisy). Herbaceous perennial. Flowers solitary, three inches across, in rays born on long stalk, bright orange and yellow. Leaves 5 to 10 inches long, 2 to 3 inches broad, roughly toothed.

	Each	Lots of 10
Potted	\$1.00	\$7.50

HELIOTROPE (Heliotropium peruvianum). Peru. Well-known and much used plant with fragrant bluish lilac flowers and rich dark green, prominently veined leaves. Leaves somewhat wrinkled and hairy. Can be used as a bedding plant, vine or low shrub.

	Each	Lots of 10
Potted	\$.25	\$2.00

IRIS (German). Well-known moisture-loving plants with flowers in many colors, principally blue and white. Leaves 1 to 1½ feet long.

	Each	Lots of 10
Large clumps	\$.75	\$6.00

IRIS (Japanese). The showiest and most highly prized of all the Iris family. Large in size and of wonderful coloring.

	Each	Lots of 10
Clumps	\$1.00	\$7.50

LAVENDER (Lavendula). An ancient garden favorite, known by everyone because of its pleasant odor. Flowers blue or violet.

	Each	Lots of 10
Potted	\$.25	\$2.00
Field plants	1.00	7.50

LOTUS BERTHOLETTI (Lotus peltorinchus). Small, much branched, slender shrub with a silvery hue and trailing habit. Cultivated mainly in hanging baskets or in places where a trailer or ground cover is desired. The whole plant silvery gray. Flowers scarlet and crimson, about 1½ inches long, in loose clusters towards end of drooping shoots.

	Each	Lots of 10
Potted	\$.50	\$4.00

OPHIOPOGON JABURAN VARIEGATUS. Hardy ground cover, grown for its bluish white bloom and attractive foliage.

	Each	Lots of 10
Potted	\$.75	\$6.00

PHORMIUM TENAX (New Zealand Flax). A stemless plant with numerous sword-like, rigid leaves, 3 to 6 inches long, 2 to 3 inches wide, dark green with reddish midrib; some are to be found with glaucous leaves. Flowers yellow or red, born on tall stalks.

	Each
Clumps, ¾ ft.	\$2.00

PANSY (Viola tricolor). We carry the finest strains of mixed pansies every year.

	Lots of 10	Per 100
Strong plants	\$.50	\$4.00

PELARGONIUMS (Lady Washington Geraniums). Similar to Geraniums, but are woody instead of succulent. Flowers larger and leaves differently shaped.

	Each
Potted	\$.75

ROMNEYA COULTERI (Matilija Poppy). Southern California. Our finest native flowering plant. Half-shrubby, forming a large bush of silvery hue. The flowers are magnificent, sometimes six inches broad; petals purest white, center rich yellow from the numerous stamens. The fragrance is much like that of the pulp of a ripe orange. The individual flowers last many days and the plants are in bloom all summer. Difficult to propagate.

	Each	Lots of 10
Potted	\$1.00	\$7.50

SOLLYA HETEROPHYLLA (Australian Bluebell). Low evergreen climber. Leaves variable, but not lobed or cut. Flowers numerous and very handsome, brilliant blue, about half an inch long, bell-shaped. Decidedly pretty. May be used as a low-growing bush shrub to very good advantage. Very profuse bloomer.

	Each	Lots of 10
Potted	\$.75	\$6.00

TRITOMA (Kniphofia) (Red-hot Poker Plant). Very showy perennial plant with spikes of long red and orange blooms.

	Each	Lots of 10
Potted	\$.75	\$6.00

VIOLA CORNUTA PAPILIO (Tufted Pansy). The best and most highly prized of all the Violas.

	Lots of 10	Lots of 100
Strong plants	\$.60	\$5.00

ANNUALS AND PERENNIALS

We carry a fine selection of the above suitable for planting out at the proper seasons and are in a position to furnish fine, strong stock at all times at reasonable figures consistent with first-class material.

ROSES

Our roses are all two-year-old budded stock, the varieties being all such as have been thoroughly tested out and found to be suitable to our California conditions. They will all bloom the first year after planting and will, we know, give every satisfaction.

HOLLAND BULBS

We are cataloguing only the varieties of bulbous plants which have been demonstrated to do well in our State, and which we know will give eminent satisfaction with any ordinary treatment.

HYACINTHS

The following single Hyacinths, while equally useful for bedding or forcing, are mainly used for bedding purposes. They will produce fine spikes of bloom and the different sorts as offered being of one shade of color render them of great value for bedding in formal work. They are also used extensively for forcing for winter blooming and for cutting.

TULIPS

MAY FLOWERING TULIPS. These grand late-flowering Tulips are especially adapted for use in California, and are bound to have a great success in our State. At the present time they are on the rising tide of popularity, and have proved themselves to be eminently adapted for our outdoor work. They present a most gorgeous appearance, the flowers being very large, of durable substance, beautifully formed and borne on tall, stiff stems, rendering them of exceptional value when cut for vases.

	Doz.	100		Doz.	100
GESNERIANA SPATHULATA MAJOR. Dazzling crimson-scarlet, with violet black center, tall-stemmed, large flowers; most effective for beds and borders.....	\$.70 \$4.80	PICOTEE. An elegant flower with recurved petals; color pure white with picotee margin of rose-pink..	.60	4.00
GESNERIANA ROSEA. Large, soft red blooms with blue centers, borne on long stems.....	.60	4.00	INGLESCOMBE SCARLET. Brilliant scarlet, black face, very large, attractive flower80	5.60
BOUTON D'OR. Rich, deep golden yellow; a large, long-stemmed, globular flower of finest substance; a fine bedder and unequaled for cutting.....	.65	4.50	CALEDONIA. Bright orange scarlet60	4.00
			INGLESCOMBE YELLOW. Glossy canary yellow, in shape resembling the Darwin Tulip.....	.60	4.00

DARWIN TULIPS

These Tulips are known as the Tulip Aristocrats. They are gorgeous May-flowering Tulips, very stately and beautiful, producing immense flowers on tall, sturdy stems attaining a height of two feet and over. They appear in great variety of both dainty and richly brilliant colorings, the centers of them being beautifully marked. Their beauty, hardiness and perpetuity are making them very popular, and as cut flowers they are unsurpassable.

	Doz.	100		Doz.	100
BARON DE LA TONNAYE. A long and beautiful flower; clear carmine rose at the midrib, toning off to soft pink at the edges; base white, tinged blue.....	\$.60 \$4.00	MAD. KRELAGE. A grand flower of purplish rose, broadly margined with blush pink, white base.....	.75	5.50

LOVELINESS. A finely formed flower of an exquisite shade of satiny rose pink; dwarf, but of sturdy habit60	4.00	WM. PITT. Bright scarlet. Extra fine	1.25	9.00

NARCISSUS

Among spring-flowering bulbous plants, the Narcissus family, which includes Daffodils and Jonquils, is one of the most important, and of world-wide popularity. They are all very hardy and grow, increase and flower year after year in any ordinarily good soil. They may be grown in garden beds, where they give wonderful effects; in formal work, where a mass of one color is desired; or they may be planted among the hardy plants in the herbaceous borders, and they are very wonderful when naturalized, that is, grown as wild, in outlying portions of the lawns or grounds, or on terraced slopes, along stream-side banks and in semi-shaded situations.

	Doz.	100		Doz.	100
EMPEROR. One of the finest Daffodils in cultivation. Entire flower of the richest yellow; trumpet of immense size. Double-rosed bulbs	\$1.00	\$7.50	EMPRESS. A magnificent large variety, bold and erect, of rare beauty; trumpet a rich yellow. Perianth white and of great substance. Double rosed bulbs.....	1.00	7.50

NARCISSUS, continued

	Doz.	100
GOLDEN SPUR. One of the grandest Daffodils, with extra large, bold, rich yellow flowers; foliage very broad and striking. It is of unusually robust habit and unsurpassed for gardens, pots or forcing. Early and extremely free flowering. Double rosed bulbs.....	1.25	8.50
VON SION. Flowers large and of uniform deep golden; highly prized as an early forcing sort and largely planted for outside planting	1.00	7.00

	Doz.	100
POETICUS ORNATUS. Very hardy, early-flowering variety of the Poet's Narcissus type and very popular for winter forcing, as well as for gardens, where it is used extensively for naturalizing. Splendid large white flowers with saffron cups, margined scarlet.....	.35	2.50
JONQUIL CAMPERNELLE. Very hardy and dainty form of Narcissus. While the blooms are small, they are very sweet scented and are great favorites.....	.70	5.00

ANEMONES

Highly ornamental spring and summer flowering plants, having both single and double flowers, the colors of which are wonderfully beautiful, running through shades of blue, scarlet, rose, white, etc. They are grand for cutting and are splendid for pot culture, flowering in the house or conservatory.

ANEMONE CAEN. The Giant French or poppy-flowered. This beautiful class is stronger growing and produces much larger flowers than the common single Anemones, and it also contains a much greater variety of colors, while the highly effective carmine and scarlet shades are well represented and especially magnificent.

	Doz.	100
Single mixed	\$.75	\$5.00

ANEMONE ST. BRIGID. A new and greatly improved race of Irish production, bearing magnificent flowers, double, semi-double and single, and of the largest size, as well as the daintiest rose, pink, flesh color, mauve, blue, purple, yellow, white, tinted, variegated, striped, zoned, etc., in endless variety. The flowers are borne freely on long stems, and are extravagantly beautiful for vase work, the graceful, feathery foliage supplying a charming setting.

	Doz.	100
Semi-double mixed	\$1.00	\$7.50

CROCUS

One of the earliest flowers to open in the early spring. Very hardy and may be left in the ground for several years without being disturbed. Very beautiful when planted in masses or scattered through the lawn.

	Doz.	100
Mixed.....	\$.25	\$1.25

IRIS

SPANISH IRIS. This type of Iris is becoming very popular in California, as they do exceptionally well under our climatic conditions. They are very hardy here, and will grow luxuriantly in any ordinary California soil. Many of the varieties are as beautiful as Orchids, and the varieties we have selected have been found to give most wonderful results throughout our State.

	Doz.	100
BELLE CHINOISE. Early fine yellow	\$.50	\$4.00
CAJANUS. Deep golden yellow, very tall, and fine for cutting.....	.50	4.00
HERCULES. Dark bronze.....	.50	4.00

	Doz.	100
KING OF THE BLUES. Deep dark blue50	4.00
KING OF THE WHITES. Large, pure white50	4.00
LA GRANDESSE. Very large white50	4.00

IXIAS

The Ixia is a beautiful late spring flowering bulb, with long, slender spikes of bloom. The colors are rich, varied and beautiful, the centers always differing in color from the other parts of the flowers, so that the blossoms expanding in the sun's rays present a picture of gorgeous beauty.

	Doz.	100
Mixed.....	\$.35	\$2.50

SPARAXIS

Beautiful flowers about two inches across, borne on long, graceful spikes; the colors are of the most telling combinations and of the brightest shades. They are tigers, blotched, spotted, streaked and flushed in the most diverse and pleasing manner. They do exceptionally well in California.

	Doz.	100
Mixed.....	\$.35	\$2.50

RANUNCULUS

Among dwarf flowers, these are unrivaled for lovely form and bright, attractive colors, ranging through gorgeous shades of crimson, white, yellow, etc., many of them being beautifully marked with other shades. They do exceptionally well when planted in the open and are most satisfactory.

	Doz.	100		Doz.	100
DOUBLE FRENCH. These are tall, very vigorous and robust, thriving in all soils, while their flowers are excellent for cutting. Extra fine mixed.....			TURBAN. The largest flowered and earliest blooming of the Ranunculus; the colors are very effective and the flowers are Paeony-shaped, very large, with vivid colorings and compactly double.		
	\$.75	\$5.00	Mixed75	5.00
PERSIAN. The flowers of this class are Camellia or Rose shaped, intensely double, and of very brilliant colors in rich variety. Mixed	.75	5.00			

CALLAS

CALLA ELLIOTTIANA. True golden yellow Calla Lily and not the old lemon yellow. Large, strong bulbs.

Each	Doz.
\$.35	\$3.50

TUBEROUS BEGONIAS

These are excellent for bedding and do wonderfully in shaded places, giving a wonderful color effect during the late summer months, for which purpose they cannot be too highly recommended. They are also most excellent in window boxes where shaded and as pot plants. We have a fine assortment of both single and double varieties.

	Each	Doz.
Single, mixed	\$.15	\$1.50
Double, mixed20	2.00

FREESIAS

These dainty little bulbs are easily grown and are an unending source of pleasure. The most popular variety is the pure white.

	Doz.	100
FREESIA PURITY. Good, strong bulbs.....	\$.50	\$2.50

FRUIT TREE DEPARTMENT

In our selection of fruits, berries, etc., care has been exercised to catalogue only such varieties as do well in the peninsula section, and as all of this stock is intended for private garden work, it has been our aim to supply only especially large, selected specimen trees and vines for this season's stock. All will be found to be of the highest type grown and will give utmost satisfaction.

At our Fresno Office and Sales Yard will be found exceptionally fine selection of trees and plants adapted to the San Joaquin Valley climate and conditions. To cover additional cost of handling and transportation expense an extra charge of ten per cent is added to our catalogue price for Fresno delivery.

Our Fresno Sales Yard, 2610 Railroad Avenue

For many years past we have specialized on landscape work in this section and are especially equipped to design and execute work in all sections of the San Joaquin Valley. Work of this character is given preferred attention at all times.
